ST. JOHN’S RIVERSIDE HOSPITAL
MINIMALLY INVASIVE SURGERY

FASTER RECOVERY | LESS PAIN

WHY SHOULD YOU TRUST MINIMALLY INVASIVE SURGERY?
Benefits include:
- LESS INFECTIONS: wound infections and complications have significantly decreased with far less blood loss and less trauma to the body
- LESS ANESTHESIA: MIS is ideal for patients with sensitivity to anesthesia
- LESS SCARRING: MIS procedures require small incisions resulting in less noticeable scars
- DECREASED SURGERY TIME: superior and precise technology have decreased surgery time
- LESS PAIN: MIS procedures result in less post-operative pain and discomfort
- FASTER RECOVERY: with MIS procedures, you will go home sooner!
